*J. Paediatr. Child Health* (1995) **31**, 580–586

# Subject Index

abdominal wall defects and 13 years' experience of gastroschisis 553
Aborigines, Australian
  and epidemic of acute post-streptococcal glomerulonephritis 245
  and high blood lead levels 326
  and immunity to hepatitis B, poliomyelitis and measles 345
  and influence of families on children's growth 392
  and methods to assess gestational age of neonates (Letter) 261
  and skin sores from swimming pools (Letter) 563
  changes in and risk factors for perinatal mortality among 446
  SIDS and birth defects in (Letter) 63
Abstracts
  Australian College of Paediatrics, Annual Scientific Meeting A1 (**31**:3)
  Paediatric Research Society of Australia, Annual Scientific Meeting A1 (**31**:3)
abuse, sexual; inter-rater reliability in diagnosis of 290
accident prevention and TV programmes in hospital waiting rooms 523
accidental death or SIDS (Annotation) 269
acid stable lipases; cystic fibrosis and plant sources of (Letter) 364
action plans for management of asthma 17
acyclovir and neonatal herpes simplex infection 307, 332
adenotonsillectomy and effect on failure to thrive and obstructive sleep apnoea 172
adenovirus infection and benign transient hyperphosphatasaemia (Case Report) 561
admissions, hospital; and parental asthma knowledge 95
adolescents
  and adherence to medical regimes (Review Article) 72
  and juvenile myoclonic epilepsy (Annotation) 267
  and knowledge of mental health services 41
  and obsessive-compulsive behaviour 527
  and prevalence of autonomic neuropathy in diabetes 545
  bedwetting and psychopathology in 508
  effect of small-for-gestational-age birth on 403
adrenal hyperplasia, congenital; management of 222
agnathia; infant with aglossia, choanal atresia and (Case Report) 358
air conditioning and prevalence of asthma 116
alkaline phosphatase and benign transient hyperphosphatasaemia (Case Report) 561
ambiguous genitalia and congenital adrenal hyperplasia 222
aminophylline and cerebral blood flow velocity in preterm neonates 461
analgesia for venepuncture 542
antenatal factors and SIDS 473
anterior cricoid split and subglottic stenosis in LBW infants (Letter) 158
anti-neutrophil cytoplasmic antibodies; ulcerative colitis and diagnostic value of 336
antibiotic resistant organisms; control in neonatal intensive care unit of (Letter) 260
anxiolysis and analgesia for venepuncture 542
apnoea, obstructive sleep
  failure to thrive and adenotonsillectomy for 172
  SIDS and nasal continuous positive airway pressure to reverse 88
arrhythmia, cardiac; and primary hypomagnesaemia (Case Report) 54
asphyxia, birth
  medico-legal aspects of (Letter & Reply) 57 & 59
  somatosensory evoked potentials and neurologic outcome in neonates with 148
aspirin; and neonatal outcome following high-risk pregnancies 549
asthma
  and action plans 21
  and documentation in emergency departments 130
  and effect of parental knowledge on hospital readmissions 95
  changing prevalence of 213
  definition and diagnosis of (Review Article) 272
  efficacy of teacher seminars for improved school management of 519
  geographic location, climatic conditions and 112, 116
atopy and definition of asthma (Review Article) 272
atresia
  oesophageal; and trends in indications for fundoplication 121
  choanal; infant with agnathia, aglossia and (Case Report) 358
attention deficit hyperactivity disorder
  and adolescent enuresis 508
  neurometrics, dynamic brain imaging and (Review Article) 279
autonomic neuropathy in diabetic children 545

bedwetting and psychopathology in adolescents 508
behaviour
  and adolescents born small-for-gestational-age 403
  effects of hospitalization on (Annotation) 165
  obsessive-compulsive; in children and adolescents 527
behavioural paediatrics; survey on training for (Letter & Reply) 362 & 363
BiliBlanket phototherapy and preterm infants 11
birth asphyxia *see* asphyxia, birth
birth defects
  and follow-up validation study of the Victorian Congenital Malformations Register 323
  and SIDS in Aboriginal infant deaths (Letter) 63
body mass index and Australian cutoff values for overweight screening 143
book reviews 64, 160, 263, 368, 485, 568
brain-stem; SIDS and effect of feeding method on frontal cortex and lipid composition of 14
branchial arch, first; and agnathia, aglossia and choanal atresia in an infant (Case Report) 358
breastfeeding
  and factors associated with early weaning in New Zealand 469
  factors influencing choice of (Annotation) 375
  SIDS and brain lipid composition in relation to 14

bronchial hyperresponsiveness and definition of asthma (Review Article) 272
bronchiolitis
and budesonide (Letter) 61
oxygen therapy and clinical parameters to assess 465
bronchopulmonary dysplasia
and home oxygen management of neonates 185
rehospitalization and growth of preterm infants with 105
budesonide and acute bronchiolitis (Letter) 61

candidiasis, neonatal systemic (Annotation) 490
carbon dioxide; sleeping infants and concentrations of 258, 565 & 566 (Letters & Replies)
cardiac arrhythmia and primary hypomagnesaemia (Case Report) 54
central venous pressure and inferior vena cava pressure 399
cerebral blood flow velocity and aminophylline therapy in preterm neonates 461
cerebral cortex; SIDS and effect of feeding method on 14
cerebral oedema, diabetic; incidence and outcome of 17
cerebral palsy
and conductive education-based intervention 412, 418
origins of (Consensus Statement) 284
therapy methods for 24; 364-7, 567 (Letters & Reply)
chicken pox *see* varicella
child health services and evaluation of technology 302
Chinese children
aetiology and outcome of status epilepticus in 395
growth, puberty and endocrine function associated with thalassaemia major in 83
incomplete catch-up growth in low birthweight 428
choanal atresia; infant with agnathia, aglossia and (Case Report) 358
cholestasis, neonatal and Dubin-Johnson syndrome with hepatosteatosis (Case Report) 557
cholestatic jaundice and congenital hypopituitarism 51
chromosomal anomalies and follow-up validation study of the Victorian Congenital Malformations Register 323
cleft palate and substance abusing mothers 457
climatic conditions and prevalence of asthma 112
coagulase negative *staphylococci* and ELBW infants 387
colic; medical and social evolution of (Personal Viewpoint) 384
colitis, ulcerative; and diagnostic value of anti-neutrophil cytoplasmic antibodies 336
colonic dilation, segmental; and hydrometrocolpos with MMIHS (Case Report) 479
comorbidity and high frequency oscillatory ventilation in neonates 297
compound heterozygotes and delayed diagnosis of cystic fibrosis 168
conductive education; cerebral palsy and programmes based on 412, 418
congenital
adrenal hyperplasia
and 21-hydroxylase deficiency 47
management of 222
cytomegalovirus infection, predicting outcome of 70
fibre type disproportion and minicores in one family (Case Report) 253
heart disease
and fetal echocardiography (Annotation) 371
10-year cohort (Letter & Reply) 362
hypopituitarism and cholestatic jaundice 51
malformations and drug abusing mothers 457
Malformations Register 323
varicella syndrome, lethal cases of (Letters) 259, 564
continuous positive airway pressure, nasal; SIDS and reversal of sleep apnoea using 88
coronary risk factors; family history and socio-economic status as 200
co-sleeping in infancy and SIDS 60 & 61 (Letter & Reply), 159 (Corrigendum)
cradles; danger of freely rocking 38, 155 (Letter)
crying, infants; effect of maternal depression on 218
cyanosis and clinical parameters for supplemental oxygen therapy 465
cyclical vomiting syndrome (Annotation) 67
cystic fibrosis
plant sources of acid stable lipases for (Letter) 364
use of sweat and pancreatic stimulation tests for diagnosis of rare genotype of 168
cytomegalovirus infection, symptomatic congenital; predicting outcome of (Annotation) 70

day care and risk factor for *Haemophilus influenzae* type b 513
death, accidental; or SIDS (Annotation) 269
dehydration and diabetic cerebral oedema 17
depression, maternal; and effect on infant crying 218
development and adolescents born small-for-gestational-age 403
developmental paediatrics; survey on training for (Letter & Reply) 362 & 363
dexamethasone and gastrointestinal complications despite $H_2$ antagonists (Case Report) 152
diabetes mellitus
and autonomic neuropathy 545
and cerebral oedema 17
diagnostic assessment and sexual abuse 290
diagnostic preference
and changing prevalence of asthma 213
and reduced incidence of SIDS 197
diet
and factors associated with early weaning in New Zealand 469
and prevention and treatment of hyperlipidaemia (Consensus Statement) 79
disabilities
and ELBW infants 451
intellectual; health status and needs of special school children with 423, 570 (Corrigendum)
disorders, speech; educational achievement following intervention for 207
Doppler studies and effect of aminophylline on cerebral blood flow velocity in preterm neonates 461
Down syndrome
and acute myeloid leukaemia (Letter & Reply) 57
neonatal haemochromatosis associated with (Case Report) 249
drug abuse, maternal; and congenital malformations 457
Dubin-Johnson syndrome and neonatal cholestasis (Case Report) 557
dynamic brain imaging; ADHD, neurometrics and (Review Article) 279
dysplasia, bronchopulmonary; rehospitalization and growth of preterm infants with 105

early discharge, neonatal; and home support programme 33
echocardiography, fetal; indications for and implications of (Annotation) 371
education
and effect of parental asthma knowledge on hospital readmission 95
and preschool language intervention programme 207
cerebral palsy and programmes based on conductive 412, 418
community; and effect of sleep position recommendations on play position 499
parent; and televised health promotion in hospital waiting rooms 523
teacher; and efficacy of seminars for improved school asthma policy 519
electroclinical seizures; clinical features and management of 237
electroencephalograms
and monitoring of neonatal seizures 503
and prediction of neurologic outcome following birth asphyxia 148
emergency departments
asthma documentation in 130
parental satisfaction with 435
endocrine function and thalassaemia major in Chinese children 83
enuresis and psychopathology in adolescents 508
environmental factors and colic (Personal Viewpoint) 384
enzyme levels and G6PD deficiency in neonates 44
epidemic; acute post-streptococcal glomerulonephritis 245
epidemiology of tuberculosis (Review Article) 495
epiglottitis
clinical manifestations and outcome of 99
day care attendance as risk factors for 513
epilepsy, juvenile myoclonic; symptoms, diagnosis and management of (Annotation) 267
ethnicity and prevalence of *Helicobacter pylori* infection in asymptomatic children 537
examination techniques and estimation of liver span 241
extracorporeal membrane oxygenation; psychological outcome following conventional treatment for respiratory failure in neonates eligible for 440
extremely low birthweight infants *see* low birthweight infants

failure to thrive and adenotonsillectomy for obstructive sleep apnoea 172
families and influence on growth of Aboriginal children 392
family history; relation of heart disease risk factors to socio-economic status and 200
family support and neonatal early discharge programme 33
fatty acids; SIDS and effect of feeding method on levels of 14
fibre type disproportion, congenital; and minicores in one family (Case Report) 253
fibreoptic phototherapy and neonatal jaundice (Editorial Comment) 6
foetus; indications for and implications of echocardiographic examination of (Annotation) 371
foreign body inhalation and haemoptysis (Letter) 261
Fremantle Lead Study and risk factors for high blood lead levels 326
frenulotomy; tongue-tie and indications for (Review Article) 276
fundoplication; gastro-oesophageal reflux and trends in indications for 121

gastro-oesophageal reflux and trends in indications for fundoplication 121
gastroenteritis, acute; home-based management of 189
gastrointestinal complications and dexamethasone (Case Report) 152
gastroschisis; 13 years' experience of 553
gastrostomy and trends in the use of fundoplication 121
genetics, molecular; of Wilms' tumour (Review Article) 379
genital findings; sexual abuse and assessment of 290
genitalia, ambiguous; and congenital adrenal hyperplasia 222
geographic location and prevalence of asthma 112
gestational age; Aboriginal neonates and methods to assess (Letter) 261
glomerulonephritis, acute post-streptococcal; epidemic of 245
glucose-6-phosphate dehydrogenase deficiency; enzyme activity of neonates with 44
glutathione peroxidase and selenium-supplemented infant formulas in New Zealand 339
growth
and adolescents born small-for-gestational-age 403
and low birthweight Chinese infants 428
and rehospitalization of preterm infants with bronchopulmonary dysplasia 105
and thalassaemia major in Chinese children 83
influence of Aboriginal families on 392

haemochromatosis, neonatal; Down syndrome associated with (Case Report) 249
*Haemophilus influenzae* type b
clinical manifestations and outcome of 99, 364 (Letter)
day care attendance as risk factor for 513
haemoptysis and foreign body inhalation (Letter) 261
haemorrhagic disease of the newborn and vitamin K (Letter) 60
health promotion and TV programmes in hospital waiting rooms 523
health services
and evaluation of technology 302
and parental satisfaction with emergency department of teaching hospital 435
mental; adolescent knowledge of 41
health status of intellectually disabled special school children 423, 570 (Corrigendum)
hearing loss, sensorineural; extremely premature infants and risk factors for 312
heart disease
ischaemic; family history and socio-economic factors in 200
congenital
10-year cohort (Letter & Reply) 362
and indications for and implications of fetal echocardiography (Annotation) 371
*Helicobacter pylori* and prevalence in asymptomatic children 537
hepatitis B; immunity levels in vaccinated Aborigines and Torres Strait Islanders to poliomyelitis, measles and 345
hepatosteatosis and Dubin-Johnson syndrome in neonates (Case Report) 557
herpes simplex virus infections, neonatal
clinical features facilitating early diagnosis of 307
review of hospital's experience of 332
herpes zoster, intra-uterine; and childhood deafness (Letter) 483
heterozygotes, compound; and delayed diagnosis of cystic fibrosis 168

high frequency oscillatory ventilation; and respiratory failure in neonates 292, 297
history taking; importance of (Letter) 261
home oxygen therapy
  and neonatal chronic lung disease 185
  and premature infants with bronchopulmonary dysplasia 105
home therapy and acute gastroenteritis 189
hospitalization; behavioural effects of (Annotation) 165
hyaline membrane disease
  effect of late artificial surfactant rescue on ventilatory function of premature infants with 532
  timing of transfer of babies with (Letter) 565
hydrometrocolpos and segmental colonic dilation with MMIHS (Case Report) 479
hydrops and neonatal haemochromatosis associated with Down syndrome (Case Report) 249
17$\alpha$-hydroxyprogesterone, urinary; and 21-hydroxylase deficiency 47
21-hydroxylase deficiency
  and urinary 17$\alpha$-hydroxyprogesterone 47
  management of 222
5-hydroxytryptamine and cyclical vomiting syndrome (Annotation) 67
hyperactivity and adolescent enuresis 508
hyperbilirubinaemia; respiratory distress syndrome and phototherapy for 127
hyperlipidaemia; dietary intervention in prevention and treatment of (Consensus Statement) 79
hyperphosphatasaemia, benign transient; and adenovirus infection (Case Report) 561
hyperplasia
  and 21-hydroxylase deficiency 47
  management of 222
hypoglycaemia and congenital hypopituitarism 51
hypomagnesaemia, primary; and cardiac arrhythmia (Case Report) 54
hypopituitarism, congenital; and cholestatic jaundice 51
hypoplasia, severe mandibular; with absent tongue (Case Report) 358

immunization
  and *Haemophilus influenzae* type b 99, 364 (Letter)
  clinical signs associated with DTP 228
  immunity levels in Aborigines and Torres Strait Islanders to hepatitis B, poliomyelitis and measles following 345
infant formulas
  and selenium status of New Zealand infants 339
  factors influencing choice of (Annotation) 375
inferior vena cava pressure and central venous pressure 399
inflammation, airway; and definition of asthma (Review Article) 272
intensive care units, neonatal *see* neonatal intensive care units
intercostal recession and clinical parameters for supplemental oxygen therapy 465
intervention, dietary; and hyperlipidaemia (Consensus Statement) 79
intervention programmes; educational achievement following 207
intrapartum antibiotics and prevention of early-onset group B streptococcal sepsis in newborns (Annotation) 493
intrapartum factors and SIDS 473
intravenous immunoglobulin and salmeterol for Wilson-Mikity syndrome (Letter) 259
invasive pneumococcal infection; hospital-based study of 317
ischaemic heart disease; family history and socio-economic factors in 200
ISPAD declaration of Kos (Letter) 156

jaundice
  cholestatic; and congenital hypopituitarism 51
  neonatal; and fibreoptic *vs* conventional phototherapy (Editorial Comment) 6
juvenile myoclonic epilepsy; symptoms, diagnosis and management of (Annotation) 267

Kawasaki disease and streptococcal infection within a family 355
ketoacidosis, diabetic; and cerebral oedema 17

lactose intolerance in Asian children (Letter & Reply) 564 & 565
lamotrigine and juvenile myoclonic epilepsy (Annotation) 267
language programmes; educational achievement following 207
lead levels, blood; and Fremantle Lead Study 326
leukaemia, acute myeloid; and trisomy 21 (Letter & Reply) 57
lipases, acid stable; cystic fibrosis and plant sources of (Letter) 364
lipid composition; SIDS and effect of feeding method on frontal cortex and brain-stem 14
liver size; clinical measurement of 241
low birthweight infants
  and Aboriginal perinatal mortality trends 446
  and anterior cricoid split for subglottic stenosis (Letter)158
  extremely
    and neonatal nosocomial infection 387
    neurodevelopmental outcome at 4 years and survival rates of 451
  incomplete catch-up growth in Chinese 428
  risk factors for sensorineural hearing loss in 312
  survival of (Letter & Reply) 156 & 157
  very; and incidence and severity of retinopathy of prematurity 134
lumbar puncture and neonatal sepsis 1 (Annotation), 8
lung disease, chronic neonatal; home oxygen management of 185

malformations
  and follow-up validation study of the Victorian Congenital Malformations Register 323
  congenital; and maternal drug abuse 457
mandibular hypoplasia, severe; with absent tongue (Case Report) 358
maternal
  depression and effect on infant crying 218
  drug abuse and congenital malformations 457
  smoking and early weaning in New Zealand 469
  varicella infection, lethal cases of (Letters) 259, 564
measles; immunity levels in vaccinated Aborigines and Torres Strait Islanders to poliomyelitis, hepatitis B and 345
medical regimes; adherence of children and adolescents to (Review Article) 72
megacystis-microcolon-intestinal hypoperistalsis syndrome; hydrometrocolpos and segmental colonic dilation with (Case Report) 479

meningitis
and lumbar puncture 1 (Annotation), 8
clinical manifestations and outcome of 99, 364 (Letter)
day care attendance as risk factors for 513
mental health services; knowledge of adolescents about 41
6-mercaptopurine; liquid dose form of (Letter) 62
midazolam and analgesia for venepuncture 542
migraine and cyclical vomiting syndrome (Annotation) 67
migrants and vitamin D deficiency 180, 483 (Letter)
minicores and congenital fibre type disproportion in one family (Case Report) 253
morbidity
and gastroschisis 553
and invasive pneumococcal infection 317
and low-dose aspirin therapy in high-risk pregnancies 549
and maternal drug abuse 457
and neonatal herpes simplex infection 307, 332
and neonatal intensive care 137
of tuberculosis (Review Article) 495
morphine and increased synchronous ventilation in preterm infants 176
mortality
and freely rocking cradles 38, 155 (Letter)
and gastroschisis 553
and invasive pneumococcal infection 317
and low-dose aspirin therapy in high-risk pregnancies 549
and maternal drug abuse 457
and neonatal herpes simplex infection 307, 332
and neonatal intensive care 137
of tuberculosis (Review Article) 495
perinatal; and Aboriginal births 446

necrotizing enterocolitis and neurodevelopmental outcome following surgery 233
neonatal intensive care units
and first-year mortality and hospital morbidity 137
control of antibiotic-resistant organisms in (Letter) 260
home support following early discharge from 33
nosocomial infection in 387
neonates
Aboriginal; evaluation of methods to assess gestational age of (Letter) 261
aminophylline and cerebral blood flow velocity in preterm 461
and Dubin-Johnson syndrome with hepatosteatosis (Case Report) 557
and early discharge programme 33
and fibreoptic *vs* conventional phototherapy for jaundice (Editorial Comment) 6
and first-year mortality and hospital morbidity following intensive care 137
and home oxygen management of chronic lung disease 185
and low-dose aspirin therapy in high-risk pregnancies 549
and lumbar puncture 1 (Annotation), 8
and nosocomial infection in intensive care units 387
and prediction of neurologic outcome following birth asphyxia 148
and review of hospital's experience of herpes simplex virus infections 332
and selenium-supplemented formulas in New Zealand 339
and systemic candidiasis (Annotation) 490
cholestatic jaundice and congenital hypopituitarism in 51
clinical features and management of seizures in 237
clinical features and early diagnosis of herpes simplex virus in 307
Down syndrome associated with haemochromatosis in (Case Report) 249
electroencephalograms, clinical observations and monitoring seizures in 503
enzyme levels and glucose-6-phosphate dehydrogenase deficiency in 44
high frequency oscillation for respiratory failure in 292, 297
hyaline membrane disease and timing of transfer of (Letter) 565
prevention of early-onset Group B streptococcal sepsis in (Annotation) 493
psychological outcome following conventional treatment for severe respiratory failure of ECMO-eligible 440
nephroblastoma; molecular genetics of (Review Article) 379
neurodevelopmental outcome
and ELBW infants at 4 years 451
effect of surgery for NEC on 233
neurometrics; ADHD, dynamic brain imaging and (Review Article) 279
neuropathy, autonomic; and diabetes mellitus 545
nosocomial infection, neonatal; incidence of and organisms responsible for 387
nutrition
and BMI cutoff values for overweight screening in Australia 143
and prevention and treatment of hyperlipidaemia (Consensus Statement) 79

obesity and BMI cutoff values for overweight screening in Australia 143
obituary; Peter Jones 489
obsessive-compulsive behaviour in children and adolescents 527
oedema, cerebral; incidence and outcome of diabetic 17
oscillatory ventilation, high frequency; and respiratory failure in neonates 292, 297
oxygen therapy; and clinical parameters to assess bronchiolitis 465

Paediatric Support Link Database (Letter) 158
pancreatic stimulation test; and diagnosis of rare cystic fibrosis genotypes 168
parental
education, and televised health promotion in hospital waiting rooms 523
knowledge of asthma and hospital readmission 95
satisfaction with emergency department of teaching hospital 435
perinatal mortality trends among Aboriginal births 446
phenytoin and severe acute SIADH (Letter) 155
phototherapy
and hyperbilirubinaemia in preterm infants with respiratory distress syndrome 127
BiliBlanket fibreoptic *vs* conventional for neonatal jaundice 6 (Editorial Comment), 11
plant acid stable lipases and cystic fibrosis (Letter) 364
play position; effect of SIDS sleep position recommendations on 499
pneumococcal infection; hospital-based study of 317

poliomyelitis; immunity levels in vaccinated Aborigines and Torres Strait Islanders to hepatitis B, measles and 345
posture, 'flattened'; effect of support nappies on very preterm infants with 350
pre-eclampsia and low-dose aspirin therapy in high-risk pregnancies 549
premature infants
aminophylline and cerebral blood flow velocity in 461
and BiliBlanket *vs* conventional phototherapy 11
and gastrointestinal complications with dexamethasone despite $H_2$ antagonists (Case Report) 152
and incidence and severity of retinopathy of prematurity 134
and neurodevelopmental outcome at 4 years 451
and neurodevelopmental outcome following surgery for NEC 233
bronchopulmonary dysplasia and rehospitalization and growth of 105
effect of postural support nappies on 'flattened posture' in 350
hyaline membrane disease and effect of late artificial surfactant rescue on ventilatory function of 532
morphine and increased synchronous ventilation in 176
respiratory distress syndrome and phototherapy for hyperbilirubinaemia in 127
risk factors for sensorineural hearing loss in 312
primary infantile hypomagnesaemia and cardiac arrhythmia (Case Report) 54
prone position
and effect of sleep position recommendations on play positioning 499
and SIDS (Letter) 155
psychological outcome of ECMO-eligible neonates treated with conventional methods for severe respiratory failure 440
psychopathology and bedwetting in adolescents 508
puberty and thalassaemia major in Chinese children 83

quality management and asthma documentation in emergency department 130

reflux, gastro-oesophageal; and trends in indications for fundoplication 121
rehospitalization
and growth of preterm infants with bronchopulmonary dysplasia 105
and parental asthma knowledge 95
rehydration
solutions, oral; and acute gastroenteritis 189
therapy and incidence and outcome of diabetic cerebral oedema 17
respiratory distress syndrome and phototherapy for hyperbilirubinaemia in preterm infants 127
respiratory failure
high frequency oscillation in neonates with 292, 297
psychological outcome of ECMO-eligible neonates following conventional treatment for 440
respiratory mechanics and effect of late artificial surfactant rescue on ventilatory function of premature infants with HMD 532
respiratory symptoms
and geographic location 112
and indoor air quality 116
respiratory syncytial virus; oxygen therapy and clinical parameters to assess 465
retinopathy of prematurity; incidence and severity of 134
rickets and migrant parents 180, 483 (Letter)
risk factors
for Aboriginal perinatal mortality 446
for high blood lead levels 326
for invasive *Haemophilus influenzae* type b 513
for sensorineural hearing loss in extremely premature infants 312
for SIDS 408, 473
heart disease; family history and socio-economic status as 200

salmeterol and IVIG for Wilson-Mikity syndrome (Letter) 259
schools
efficacy of teacher seminars for improved asthma management in 519
special; health status and needs of intellectually disabled children in 423, 570 (Corrigendum)
seizures, neonatal
clinical features and management of 237
electroencephalograms, clinical observations and monitoring of 503
selenium and supplemented infant formulas in New Zealand 339
sensorineural hearing loss; extremely premature infants and risk factors for 312
sepsis, neonatal
and lumbar puncture 1 (Annotation), 8
prevention of early onset (Annotation) 493
serology and prevalence of *Helicobacter pylori* infection in asymptomatic children 537
sexual abuse; inter-rater reliablility in diagnosis of 290
SIDS *see* sudden infant death syndrome
skin infections
and epidemic of acute post-streptococcal glomerulonephritis 245
and swimming pools (Letter) 563
sleep apnoea, obstructive; failure to thrive and adenotonsillectomy for 172
sleep fragmentation; SIDS and nasal continuous positive airway pressure to reverse 88
sleeping position and accidental death or SIDS (Annotation) 269
small-for-gestational-age birth
and effect on growth, development and behaviour in adolescents 403
and incomplete catch-up growth in Chinese infants 428
smoking, maternal; and early weaning in New Zealand 469
socio-economics
and ischaemic heart disease 200
and rates of sudden infant death syndrome 408
sodium valproate and juvenile myoclonic epilepsy (Annotation) 267
somatosensory evoked potentials and prediction of neurologic outcome following birth asphyxia 148
speech disorders; educational achievement following intervention for 207
status epilepticus; aetiology and outcome in Chinese children of 395
sternal retraction and clinical parameters for supplemental oxygen therapy 465

streptococcal infection and Kawasaki disease within a family 355
streptococcal sepsis, group B; and prevention strategies for newborns (Annotation) 493
*Streptococcus pneumoniae*; hospital-based study of 317
stricture, oesophageal; and trends in indications for fundoplication 121
subglottic stenosis and anterior cricoid split in LBW infants (Letter) 158
sudden infant death syndrome
and birth defects in Aboriginal infant deaths (Letter) 63
and brain lipid composition in relation to feeding method 14
and carbon dioxide concentrations during sleep 258, 565 & 566 (Letters & Replies)
and co-sleeping in infancy 60 & 61 (Letter & Reply), 159 (Corrigendum)
and effect of nasal continuous positive airway pressure on sleep apnoea 88
and effect of sleep position recommendations on positioning for play 499
and freely rocking cradles 38, 155 (Letter)
and maternal drug abuse 457
and prone position (Letter) 155
antenatal and intrapartum factors associated with 473
changing diagnostic preference and reduced incidence of 197
low-income groups and rates of 408
or accidental death (Annotation) 269
surfactant, synthetic; and effect of late administration on ventilatory function of premature infants with HMD 532
surgery
neurodevelopmental outcome in VLBW infants with NEC following 233
video-assisted thoracoscopic 192
sweat tests; use in diagnosis of rare cystic fibrosis genotypes 168
swimming pools and Aboriginal skin sores (Letter) 563
syndrome of inappropriate secretion of antidiuretic hormone and phenytoin (Letter) 155
systemic candidiasis, neonatal (Annotation) 490

technology; child health services and evaluation of 302
telemetry, video/electroencephalographic; and neonatal seizures 237
television and health promotion in hospital waiting rooms 523
teratogenicity and maternal drug abuse 457
thalassaemia major and growth, puberty and endocrine function in Chinese children 83
therapy methods for cerebral palsy 24; 364-7, 567 (Letters & Reply)
thoracoscopic surgery, video assisted 192
Tongala Project and conductive education-based intervention for cerebral palsy 412
tongue-tie; presenting features of and frenulotomy for (Review Article) 276
training; survey on developmental-behavioural (Letter & Reply) 362 & 363
triaging system for assessment of acute illness 29
triple antigen vaccination; clinical signs associated with 228
trisomy 21 and acute myeloid leukaemia (Letter & Reply) 57
tuberculosis; epidemiology, mortality and morbidity of (Review Article) 495

ulcerative colitis and diagnostic value of anti-neutrophil cytoplasmic antibodies 336
ultrasound, cranial; and prediction of neurologic outcome following birth asphyxia 148
urine pregnanetriol and 17-OHP in management of 21-OHD 47

vaccination
and varicella (Annotation) 3
clinical signs associated with DTP 228
immunity levels in Aborigines and Torres Strait Islanders to hepatitis B, poliomyelitis and measles following 345
varicella
and vaccination (Annotation) 3
intra-uterine; and childhood deafness (Letter) 483
syndrome, congenital; lethal cases of (Letters) 259, 564
venepuncture; analgesia for 542
ventilation
high frequency oscillatory; and respiratory failure in neonates 292, 297
mechanical; and respiratory failure in neonates 292, 297
preterm infants and increased synchronous 176
very low birthweight infants *see* low birthweight infants
